ABOUT ME

Informatics graduate (GPA 3.68/4.00, Outstanding Graduate Award) with professional experience delivering full-stack web systems in production environments. Built a clinic management system and an e-learning platform end-to-end using PHP, MySQL, HTML, and CSS. Published IEEE researcher and first-place data science competition winner. Seeking backend engineering, application operations, system reliability, or data roles.

EDUCATION

Telkom University

Bachelor Degree, Informatics. GPA 3.68/4.00

Sept 2021 – Aug 2025

- Outstanding Graduate Award at the Faculty Level Third Period, 2024/2025 Academic Year
- Relevant Coursework : Software Analysis and Design, Software Implementation and Testing, Database Systems, Operating Systems, Computer Networks, Machine Learning, Cyber Security, Platform-Based Application, ICT Project Management

General English Program (1 Month, Offline)

English Domestic, Pare, Kediri, East Java - *Predicate: Excellent*
Speaking Foundation: 89; Pronunciation: 90; Speak Smart: 87

Sept 2025 – Oct 2025

EXPERIENCE

GoAR Global

Fullstack Web Developer

Dec 2025 – Mar 2026

- Architected and delivered a vaccination clinic management system from scratch (PHP, MySQL, HTML, CSS), covering booking workflows, participant tracking, and vaccination status modules used in live clinic operations.
- Designed normalised database schemas and validation logic, improving data consistency and reducing input errors during operational rollout.
- Handled end-to-end development covering requirements analysis, database design, backend logic, and frontend build.

GoAR Global

Web Developer Intern

Apr 2025 - Jun 2025

- Contributed to Neovox, a web-based English learning platform — implemented interactive frontend interfaces and backend logic using PHP and MySQL.
- Designed and optimised database schemas supporting user progress tracking and multi-module content management.
- Translated functional requirements into tested, sprint-ready features under senior developer supervision.

GoAR Global

Database Architect Intern

Jul 2024 - Aug 2024

- Designed and optimized database schemas to support scalable data management for the Funplay application project.
- Created comprehensive ERD documentation for data modeling and system design.
- Collaborated with developers to align database structures with functional and technical requirements.

Tel-U Goods

Marketing Specialist (Part-Time)

July 2022 - Sep 2022

- Acquired 15+ customers and sold 50+ products within one month through direct marketing to Informatics students.
- Maintained accurate weekly sales reporting and inventory tracking in Excel.

LEADERSHIP EXPERIENCE

BPA Telkom University

Liaison Officer, PMM Batch 4 (Modul Nusantara)

Feb 2024 - Jun 2024

- Coordinated logistics and communication across 10+ events; identified 3 optimal venues and improved coordination efficiency by ~20%.

Telkom University

Liaison Officer, PKKMB 2023

Jul 2023 - Sep 2023

- Guided 20 new students through onboarding; achieved 95% satisfaction in query resolution and 100% attendance accuracy.

PPU HIMA IF 2021

Secretary (Core Team)

Jan 2023 - Mar 2023

- Produced proposals, accountability reports, and meeting minutes supporting transparent organisational operations.

CERTIFICATIONS & PUBLICATIONS

- IEEE Conference Paper: Implementation of Naive Bayes and SVM for Nutritional Status Classification in Kalijambe | [Link](#) 2025
- BCG - Introduction to Data for Decision Makers Job Simulation by Forage | [Link](#) 2025
- CBRE - Project Management Job Simulation by Forage | [Link](#) 2025
- Introduction to Structured Query Language (SQL) | [Link](#) 2024

ACHIEVEMENTS

- Outstanding Graduate Award (Faculty Level), Academic Year 2024/2025 2025
- 1st Place Winner, Neurontara Data Clash 2025 (Classification Rumble) 2025
- Presenter, International Conference on Artificial Intelligence and Mechatronics Systems (AIMS 2025) 2025
- 3rd Place, Business Plan Competition – Evolution 2024
- Best Presentation, Business Plan Competition – Evolution 2024
- Top 10 Best Essays, Profesi Keuangan Expo 2024 2024
- 3rd Place, UI/UX Design Competition – Future Vibes 2024

OTHER EXPERIENCE

Language & Databases : PHP, Python, SQL, HTML, CSS, MySQL, Golang

Engineering Practices : Database Design, ERD Modelling, System Debugging, Git, Machine Learning (Naive Bayes, SVM)

Tools & productivity : Git, Trello, Miro, Notion, Canva, Figma, Microsoft Office, Stakeholder Communication

Languages : Indonesian (Native), English (Professional Working Proficiency)
